AFRICA RESEARCH EXCELLENCE FUND COLLEGE OF EXPERTS

Now Recruiting!

We are recruiting mid- /senior level researchers, with about 5 to 10 years postdoctoral research experience, to the AREF College of Experts. We welcome scientists from all disciplines who are dedicated to achieving better human health in Africa through excellent research – at the bench or desk, the bedside or with communities and populations.

The primary role of the College of Experts is to advise AREF on the quality of applications for funding and to provide constructive feedback for the applicants. Have you experience of being a "peer reviewer"?

We are especially keen to recruit African researchers from Sub-Saharan Africa, working in the subregion or overseas, who have a strong track record of research plus experience in project leadership, researcher supervision, mentorship and international collaboration. Commitment to bringing on a new generation of potential research leaders in Africa is essential.

AREF is committed to a College that is well-balanced in terms of gender, diversity of research disciplines and nationality. We especially welcome applications from francophone and lusophone regions. However, members need to be proficient in English.

Application deadline: 17th June 2016

ABOUT AREF

AREF is a charity that aims to nurture African health research at its most vulnerable points, by supporting and developing people, projects and infrastructure to deliver excellent research in Africa for the benefit of Africa.

ABOUT OUR FELLOWSHIPS

AREF Research Development Fellowships enable talented African postdocs to develop their own research ideas and funding proposals through 3 to 9 –month placements in leading research organisations in South Africa, UK and continental Europe.

For information about our review process and how to apply to become a member of the AREF College of Experts visit:
