

CUBIC MR Physics for Radiographers Workshop

The Cape Universities Body Imaging Centre (CUBIC) UCT held its second workshop on Basics of MRI on Friday 26 & Saturday 27 February 2016 at the CUBIC MRI unit. Radiographers from all over the Western Cape attended this two day MRI Hands-on workshop which was specifically designed to benefit radiographers working on, or interested in MRI in both a clinical and research environment.

The workshop consisted of a series of lectures, followed by practical sessions based on the theory. Participants had the opportunity to experiment with MRI parameters on the various MRI pulse sequences. The course content specifically focused on Components of the scanner, signal creation, image creation, image formation and MR contrast.

The course will be repeated towards the end of the year (dates to be announced at a later stage) if you are interested in attending the course please email cubic@uct.ac.za

Please visit our website <http://www.cubic.uct.ac.za/> to view upcoming workshops that will be held during the course of the year.

For more information please feel free to contact CUBIC on 021 406 6128 or cubic@uct.ac.za
