

QUALITATIVE METHODS SUPPORT FORUM

Clinical Research Centre (CRC), Faculty of Health Sciences

The CRC offers support to Faculty staff and students conducting clinical research. This has included facilitating informal meetings between those undertaking specific clinical-research functions or activities. The intention is for us to support each other, particularly as some study team members can feel isolated in their role.

Those conducting qualitative methods related to clinical research (or otherwise) are invited to a support forum on:

Date: Thursday 23rd October 10:00 - 11:00
Venue: Clinical Research Centre, L Floor (L51),
Groote Schuur Hospital Old Main Building
Info: elizabeth.allen@uct.ac.za
