

Faculty of Health Sciences & Clinical Research Centre present this free introductory session

Economic Evaluation for the Uninitiated: a Primer

- 20 April 2016 from 15:00-18:00
- 22 April 2016 from 15:00-18:00 (repeat)

Lecturer: David Watkins, MD, MPH

Department of Medicine, University of Cape Town

Division of General Internal Medicine, University of Washington

Summary

This workshop is designed to provide for researchers in the Faculty of Health Sciences a brief introduction to economic evaluation methods relevant to public health, particularly cost-effectiveness analysis. The workshop will be carried out over three hours and offered on 20 and again on 22 April 2016. No prior experience in economic concepts or statistics is required to participate. A full, non-credit short course on economic evaluation that builds on the content of this workshop will be offered in spring 2016.

Objectives

By the end of this session, participants will be able to:

1. Identify economic evaluation research questions in the literature
2. Appreciate the basic principles of cost analysis
3. Understand and describe the components of a cost-effectiveness study

Schedule

15h00 – 15h25	Introduction to economic evaluation
15h25 – 16h15	Cost analysis
16h15 – 16h30	<i>Break</i>
16h30 – 17h15	Modeling health outcomes
17h15 – 18h00	Synthesizing findings and presenting results
