

# 2014

## Urology Congress

30<sup>th</sup> South African Urological Association Congress

**18-21 September 2014, The Bay Hotel, Camps Bay, Cape Town**

### *Invitation to attend the GP Symposium hosted by the South African Urological Association*

**Date: Saturday 20 September 2014**  
**Venue: The Bay Hotel, Camps Bay, Cape Town**  
**Time: 08h00**

On behalf of the organising committee of the 30th Biennial Conference of the South African Urological Association, I would like to invite you to attend a tailor made half day symposium on urological disease in general practice. Figures from the UK suggest that 10% of patients presenting to a GP have a urological disease.

The half day symposium will be hosted on a Saturday morning and is complimentary to all GPs on a first come first served basis (limited to 100 attendees). I believe it's an excellent opportunity to benefit from the excellent local and international faculty present at this year's congress. The programme covers Erectile Dysfunction and hypogonadism, new advances in Prostate cancer, updates on common presenting complaints and investigation of urological disease, urinary Incontinence and urinary tract infections amongst others. For more details on the congress, please see the official website [www.urology2014.co.za](http://www.urology2014.co.za).

I really believe that you will benefit from this educational opportunity which will be CPD accredited.

**For your convenience we have created an online registration form on the Urology Congress website:**  
**<http://urology2014.co.za/general-practitioners-symposium/>**

**Should you require further assistance, please contact the booking office**

Sincerely,

Professor John Lazarus  
Head: Division of Urology  
Groote Schuur Hospital  
University of Cape Town
