

## **THE HARRY CROSSLEY CLINICAL RESEARCH FELLOWSHIPS 2016**

### **Submission date: 18 March 2016**

#### **Fostering clinical and translational research at UCT**

The Trustees of the Harry Crossley Foundation are offering Clinical Research Fellowships to support a full-time focus on clinical and translational research at UCT's Faculty of Health Sciences and dedicated research time for early-career clinical, academic and research staff.

The award will provide busy clinical researchers and health professionals attached to the Faculty of Health Sciences the time required to, for example, complete a PhD or deliver on an important research project.

The following conditions apply:

- Ethics approval should be in place for the proposed research.
- In keeping with the Foundation's philosophy of supporting researchers in the earlier stages of their career, applicants should be under 45 years of age; in cases where fellowships are intended to support PhD completion, a more flexible age ceiling may be applied.
- Applicants should have an employment contract with UCT/PGWC that exceeds the duration of the award. Fellowships must be taken up by September 2016.

Value: up to R150, 000 per award (up to one year of support).

#### **Undertaking**

Recipients will be expected to:

- Acknowledge the Harry Crossley Foundation in any publications emanating from the fellowships.
- Complete a 2-page report on research activities and achievements enabled by the Harry Crossley Fellowship.

#### **Application**

Applications must be completed on the attached form and submitted electronically to: [research.health@uct.ac.za](mailto:research.health@uct.ac.za) by midnight on **18 March 2016**.

**RESEARCH OUTPUT**

Please supply your publication list. Full references (i.e. authors, title, year, name of journal/publisher, volume and page numbers) must be given.

- ISI-accredited journals
  
- Other journals
  
- Conference Proceedings

<b>F</b>					<b>DETAILS OF RESEARCH</b>						
<b>Descriptive title and brief summary of research project for this application</b>											
<b>Research Plan</b>											
<b>Please attach – maximum two pages:</b>											
a) A description of the research rationale, objectives, methods and anticipated major achievements of the research.											
b) Indicate collaboration with research groupings across the Faculty											
c) Describe the expected outputs from the research (eg PhD dissertation; publications)											
d) Explain to what extent the research will promote translation to policy and practice											
Duration of project		from (month/year)						to (month/year)			
For Postdoctoral Fellowships and Clinical Research Fellowships for PhD completion, please provide details of research host/supervisor			Name								
			Position								
			Department								

<b>G</b>	<b>DETAILS OF OTHER FUNDING FOR THE PROPOSED WORK</b>	
	<b>- applied for and awarded</b>	

## **H DOCUMENTATION TO BE ATTACHED TO THE APPLICATION FORM**

**Submit to [research.health@uct.ac.za](mailto:research.health@uct.ac.za) by 18 March 2016**

### **Clinical Research Fellowships:**

- 2-page Research Plan as described in F
- One-page research budget (up to R150,000)
- Full CV
- Letter of support from PhD supervisor (if applicable) or Head of Department
- Confirmation of ethics approval for the proposed research

### **Postdoctoral Fellowships:**

- 2-page Research Plan as described in F
- Full CV
- Academic transcripts
- Proof of submission of PhD thesis or award of PhD degree
- Letter of support from research host/supervisor
- Letter of recommendation from supervisor of doctoral research or another academic referee

## **J DECLARATION BY APPLICANT**

I certify that the information supplied in this application is correct and true.
