

## **ASCO-AORTIC-SASMO-SASCRO International Faculty**

### **George Demetri**

Director, Center for Sarcoma and Bone Oncology  
Senior Vice President for Experimental Therapeutics  
Professor of Medicine, Harvard Medical School

His research interests are in the discovery and development of novel, molecularly targeted therapeutics for the treatment of solid tumors, including GIST and other forms of sarcomas

### **Ursula a. Matulonis**

Medical Director Gynaecological Oncology. Susan F. Smith Centre for Woman's Cancer

Associate Professor of Medicine, Harvard Medical School

Medical Director and Program leader of the Medical Oncology Program at the Dana-Faber cancer institute.

Her research focuses on targeted therapies for gynaecological malignancy. She has a specific interest in genetic changes in ovarian cancer and rationalised targeted drug selection

### **Marcel Verheij**

Chair of Radiotherapy, Free University Amsterdam.

Professor in Translational Radiotherapy, Free University Amsterdam

President of Dutch Society for Radiation Oncology in 2010

His research activities are at the interface of the lab and clinic, evaluating the identification, pre-clinical testing and response prediction of targeted radio-sensitization. New agents causing apoptosis and increased cytotoxic effect of radiation are being investigated as well as novel ways of overcoming drug resistance.
