# μ-Med-A

Microsystems for African Health

Please register and  
reserve poster space by  
31 July 2015!

16 - 19 SEPTEMBER 2015

An International  
Workshop on  
Microsystems  
Technologies for  
African Health

*Join us for the  
third Micro-Med-A  
workshop on defining  
the challenges of  
microsystems based  
health diagnostics,  
where topics including  
HIV/Aids, malaria, TB  
and water monitoring  
will be addressed.*

Topic specific sessions will address the appropriate microsystems technologies – currently available or in the process of development – to target these areas.

The workshop will focus on the following themes:

- Burden of disease in Africa
- Microfluidic diagnostic technologies
- Point of care diagnostics
- Paper based diagnostics

**Protea Hotel Stellenbosch,  
South Africa**

#### Contact Details:

Suzanne Smith: Technical enquiries, E-mail: [ssmith@csir.co.za](mailto:ssmith@csir.co.za), Tel: +27 12 841 3101

Kelly Matthews: Conference secretary, E-mail: [kmatthew@csir.co.za](mailto:kmatthew@csir.co.za), Tel: +27 41 508 3270

Chairmen: Kevin Land (CSIR, South Africa) and Jan Korvink (KIT, Germany)
