

MSc/PhD in Immunology

A postgraduate position is available immediately under the supervision of Dr Katherine Smith. The project will involve studying the impact of helminth parasite exposure on mouse models of colorectal cancer. The project will be based in the Institute of Infectious Disease and Molecular Medicine at the University of Cape Town with the possibility for a period of research at Cardiff University, UK.

Applicants should have a BSc (Hons) or MSc in a biomedical discipline (e.g. immunology, molecular biology, biochemistry, cell biology). Preference may be shown to applicants with previous relevant experience.

Interested applicants should send a brief CV outlining relevant educational, research and technical experience to:

katie.smith@uct.ac.za and smithk28@cardiff.ac.uk
