

Highlights 2014: Picturing Health

Once again we invite *Lancet* readers to submit their photographs to *The Lancet's* annual Highlights competition. We are looking for striking images on any topic in medicine, from global health to clinical medicine, from the individual person to populations. You might want to highlight a beautiful image that captures an aspect of your research, or one that conveys a powerful truth about global health. We are interested in photographs from any country.

We invite readers to submit photographs to Highlights 2014 that capture any health issue in a compelling way. As last year, *The Lancet* and *The Lancet Global Health* will run the competition together. Winning photographs will be published in *The Lancet's* final issue of 2014 and might also be selected for the front cover of *The Lancet Global Health*.

Each entry should be submitted with 300 accompanying words that put the image in context. Submissions should not have been previously published in print or online. If a person or patient is featured then you must obtain and keep written

consent from the individual or, where this is not an option, their next of kin. Please complete the patient consent section of the Author statements form while retaining copies of the signed forms. We also encourage you to submit any additional media to support your submission online, such as video or audio features.

All photographs—colour or black and white—should be submitted through our online editorial submission system <http://ees.elsevier.com/thelancet/>, along with the required text and any supporting material for online publication. Please select *Lancet Photograph* as the article type. If a digital camera is used please set it to the highest possible quality setting and submit images as JPEG files. If you are using a film camera please submit an 8×11 inch glossy print to *The Lancet* in the post. The entries will be judged by *Lancet* editors and there will be a £300 prize for winning entries. The deadline for entries is Nov 14, 2014. So share your photos with *The Lancet* and *The Lancet Global Health*: we look forward to seeing them.
