## INNOVATION CHATS @ GROOTE SCHUUR HOSPITAL

Have you ever wondered how **innovation within public services** might actually take place?

### “LET’S ASK THE PROFESSIONALS”

As part of a new exciting Innovation Project launching at Groote Schuur Hospital to enable staff led innovation, a team of senior designers from the **Innovation Unit based in London** will be at Groote Schuur Hospital in the week of 23 June 2014. This is a unique opportunity to learn from their years of pioneering work in innovating public services, working with frontline workers, leaders, consultants, researchers and policy makers.

The Innovation Unit, a not-for-profit social enterprise, is dedicated to transforming public services and address social challenges through power of innovation. They support leaders and organisations delivering public services to see and do things differently.
