

# Apple iPad

## in health sciences workshop.

### Session 1: Using iPad in a health “teaching and learning” context.

This 2 hour session covers 3 elements of the use of iPad in Medicine, namely connectivity, teaching & research.

Learn how to access and share your data anywhere on any device using Google Drive, iCloud, Office 365, Dropbox and Transporter. See teaching tools and aids in action like the 3D body atlas, Osirix and the ability to look up information during ward rounds and teaching practicals.

Finally we will look at tools like Mendeley, Papers and Refme that assist with the collation of information to assist in research.

Time: **13h00 - 15h00** | Date: **Wed 22 July**  
**Mac Club, Barnard Fuller building**

**Your local Apple expert.**
