Nocky.Bobo@uct.ac.za

The ERP, in collaboration with the International Grants Hub, has put together the new ***Advanced Grant Writing Course*** to help elevate your grant-writing skills and improve your chances of successfully securing large international grants.

This course builds on the ERP Grant Writing Course and will assist you in gaining deeper insights into identifying the right funding opportunities, mastering advanced proposal development techniques, understanding what funders expect, navigating the complexities of grant application management, and strategically positioning yourself for success.

Webinar 1 – 27 August, 12:30-2:00pm:

- ✦ *Understanding the Funding Landscape:* Learn how to identify and select relevant grants, and understand the common requirements set by major funders.
- ✦ *Advanced Proposal Development:* The art of writing for impact, demonstrating innovation and societal relevance in your research.

Webinar 2 – 29 August, 12:30-2:00pm

- ✦ *Grant Application Management:* Managing the Team, the Project and the Budget.
- ✦ *Real-Life Insights:* Gain valuable lessons from successful (and unsuccessful) applications and apply these learnings to your own proposals*.
(*if you already have a formulated project idea, bring it with to unpack during the practical activities).

You are strongly encouraged to attend both the webinars.

Previous attendance of the Grant Writing Course is a benefit, but not a requirement for attending the Advanced course.
