## Introduction

Once you have logged into Vula, you will see the 'Home' tab next to the Vula logo. You can view all the sites you have access to in the 'Sites' menu, in which there is an option to search your sites list and 'star' your favourite sites. Starred sites will appear as tabs to the right of the 'Home' tab. You can also change the display order of your favourite sites here. Please note that **hiding a site from your tabs (by 'unstarring' the site title) does not remove your membership of that site**. You will still be able to access hidden sites from the 'Sites' menu or under 'Worksite setup' in the 'Home' tab.
