

Activity 2: Examining the ear

- Divide the participants into groups. Number of groups will depend on the number os sets os equipment available. So, if you have 5 otoscopes, you can divide into 5 groups.
- Ask each group to start by examining the different parts of the ear on each other. Focus on one part at a time and introduce them to the corresponding section of the Patient health record (appendix II):

1. Pinna
2. Mastoid
3. Ear canal
4. Ear drum

- Participants should fill in the forms below

Did you examine both sides or only one? Describe findings on one side below

PINNA	LEFT EAR	RIGHT EAR
	Normal <input type="checkbox"/> or Abnormal <input type="checkbox"/>	Normal <input type="checkbox"/> or Abnormal <input type="checkbox"/>
	If abnormal, describe what you saw:	If abnormal, describe what you saw:
	Is there any pain on pressing the tragus: Yes <input type="checkbox"/> No <input type="checkbox"/>	Is there any pain on pressing the tragus: Yes <input type="checkbox"/> No <input type="checkbox"/>
EAR CANAL	LEFT EAR	RIGHT EAR
	Normal <input type="checkbox"/> or Abnormal <input type="checkbox"/>	Normal <input type="checkbox"/> or Abnormal <input type="checkbox"/>
	If abnormal, describe what you saw:	If abnormal, describe what you saw:
EAR DRUM	LEFT EAR	RIGHT EAR
	Describe what you saw. How does the eardrum look to you?	Describe what you saw. How does the eardrum look to you?
	Do you think this is normal or abnormal?	Do you think this is normal or abnormal?
MASTOID	LEFT EAR	RIGHT EAR
	Normal <input type="checkbox"/> or Abnormal <input type="checkbox"/>	Normal <input type="checkbox"/> or Abnormal <input type="checkbox"/>
	If abnormal, describe what you saw:	If abnormal, describe what you saw:
