

## Activity 4: When otoscopes are available

Choose a partner. Use an otoscope to examine both ear canals of your partner.

EXAMINATION OF THE PINNA	LEFT EAR		RIGHT EAR	
	YES	NO	YES	NO
Is there any wax in the ear canal?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Is the wax blocking up the ear canal?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Is there a foreign body in the ear canal?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Is there any discharge in the ear canal?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Is the skin lining of the ear canal inflamed and/or swollen?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Is there anything else abnormal that you cannot identify?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Is the ear canal normal?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

*Discuss what you have seen and any difficulties that you have had with your trainer.*
