Illumina Digital Library

<http://www.ilumina-dlib.org/> Mainly a collection of images - for images links iLumina is a digital library of sharable undergraduate teaching materials for chemistry, biology, physics, mathematics, and computer science. It is designed to quickly and accurately connect users with the educational resources they need. These resources range in type from highly granular objects such as individual images and video clips to entire courses.

BEN Public Health Image Library (<http://www.biosciednet.org/portal/search/browse.php?step=3&nav=college&by=subject&filter=college&value=Anatomy&recordID=1117>)
